Projects related to tanks

Row	Employer	Project title	Weight(tons)
1	Petroleum Development and Engineering Company(PEDEC)	Construction of a 500,000 barrel tank of crude oil as EPC	1800
2	Energy Industry Design and Engineering Company(EIED)	Construction of 48 Pressure tanks of seventh Elfin project (Maroon Petrochemical Company)	1850
3	Petrochemical Industrial Engineering Company(PIDEC)	Construction of 6 storage tanks of Abadan refinery	3000
4	Petrochemical Industrial Engineering Company(PIDEC)	Construction of 4 reservoir tanks in Bandar Abbas Gasoline Refinery	3750
5	Fajr Petrochemical Company	Construction of 9 water storage tanks as EPC	11000
6	Chegalsh Consulting Engineers Company	Supply and build three floating roof storage tanks	979
7	Petrochemical Industrial Engineering Company(PIDEC)	Supply and construction of Sulfur Recovery Reservoir	146
8	Shahid Hasheminejad Gas Refining Company	Supply and construction of Sulfur Recovery Reservoir	200
9	Imam Khomeini Process Company	Supply and build two Styrene Monomer Reserve tanks	-
10	Pars Industrial soot Company	Design and build and install storage tanks	1800
11	Pasargad Oil Company	Repair and reconstruction of the damaged tank (Arak factory)	-
12	Pasargad Oil Company	Abadan Factory Development Tanks Construction	-
13	Maroon Petrochemical Company	Supply and build and install the MEG tank	625

Projects related to Steel Structure

Row	Employer	Project title	Weight(tons)
1	Shazand Arak Power Plant	Construction and installation of Steel Structure	6000
2	Seventh Arak Refinery	Construction and installation of Steel Structure	14000
3	Ehdas Management Company	Construction and transportation of Steel Structure for the cement project in Venezuela	2200
4	Middle East Tid Water Company	Construction and installation of two Industrial Sheds	650
5	Gachsaran Petrochemical Company	Construction and installation of Steel Structure	2650
6	MAPNA Neyr Perse	Construction and installation of Steel Structure of Isfahan Refinery	800
7	Bidbolande Gas Refinery	Supply and construction and installation of Steel Structure	1200
8	Iran Aluminum (Iralco)	Supply and construction and installation of Steel Structure	5954
9	Tijd Company	Supply, construction and installation of Steel Structure in phases 6, 7 and 8 of Assalouye	1995
10	Iritec	Supply, construction and installation of Steel Structure of Hormozgan steel complex	1800
11	Bahonar Copper Industries Co	Supply, construction and installation of Steel Structure for the production hall of the copper industry development plan	1526
12	Arak Machinery Manufacturing	Supply, construction and transportation of Steel Structure for ISico company's production plant	1142
13	ODCC Company	Construction of Steel Structure of Abadan Refinery	1150
14	Barez Rubber Industrial Group	Preparation, construction and installation of Steel Structure for manufacturing, baking and fishing halls	750
15	ODCC Company	Construction of sulfur recycling in Tabriz Refinery	176
16	Saba tire kord	Procurement, construction and installation of tire yarn warehouse in Saba Kurd Zanjan	140
17	Abadan Petrochemical	Design, construction and installation of PVC shed	250
18	Khatam alanbia	Construction, transportation and installation of concentrate storage shed	400

The main pillars of the company:

- Training and promotion of human resources
- Quality & Customer Centricity
- Production quality
- Responsibility
- Innovation

About us:

Machine Sazi Pars company was established in 1964 with an initial capital of 1,000,000 Rials by the private sector of Switzerland and started its activity under the name of G.D.F to produce industrial products in Iran. Based on its proper performance in the first decade of its activity, this company has gained an important position in the country's industry.

In 1974, with the participation of Iran Metal Industries and Arak Machinery Company, it was changed to Machine Sazi Pars company under number 20641 in the General Directorate of Companies Registration.

Currently, this company is a Private Co. and all its shares were transferred to TAPPICO based on the public auction of Social Security Investment Company dated August 2020,13.

TAPPICO owns %100 of the management shares of the Machine Sazi Pars company.

The vision of Machine Sazi Pars company

Machine Sazi Pars company is trying to make a high contribution to the development of our beloved country by using the latest technologies and research and development in world-class fields and also, in the future, we have planned the presence of the company in the world and regional markets. Based on this, the vision of the company is as follows:

- Becoming the top company in the region in the oil and gas and petrochemical industry
- Increasing the scope of projects at the international level
- Development of knowledge-based frontiers in the production of products using advanced technologies

Targets:

- Sustainable development of Machinery industry in Iran
- Increasing knowledge-based productions
- Increasing the scope of the company's product portfolio
- interactions between TAPPICO and Shasta companies
- Participation in reputable internal projects
- Playing a role in National and international projects to earn foreign exchange income and effective presence in National markets

Project: Fuel storage tank of Kerman combined cycle power plant

Employer: Mapna Co

Weight: -

Project: structure and construction of sodium sulfate tanks

Employer: Faleq Sanat company

Weight: -

Project: construction of petrochemical production company tanks

Employer: Ghaed Basir company

Weight: -

Project: Lead and zinc - Construction of structure and factory

Employer: Ministry of Mines and Metals

Weight: 5000 tons.

Project: Supply and manufacturing of 7 Hopper and 9 tanks of Mehr petrochemical

Employer: Rampco

Weight: 274 tons.

Project: Construction of silos

Employer: Abgineh glass

Weight: -

Project: Supply, construction and installation of Steel Structure for production hall of L90

Employer: Saipa Development Company

Weight: 2536 tons.

Project: Construction of 8 Abadan Refinery towers in PC form

Employer: Pidec co.

Weight: 850 tons.

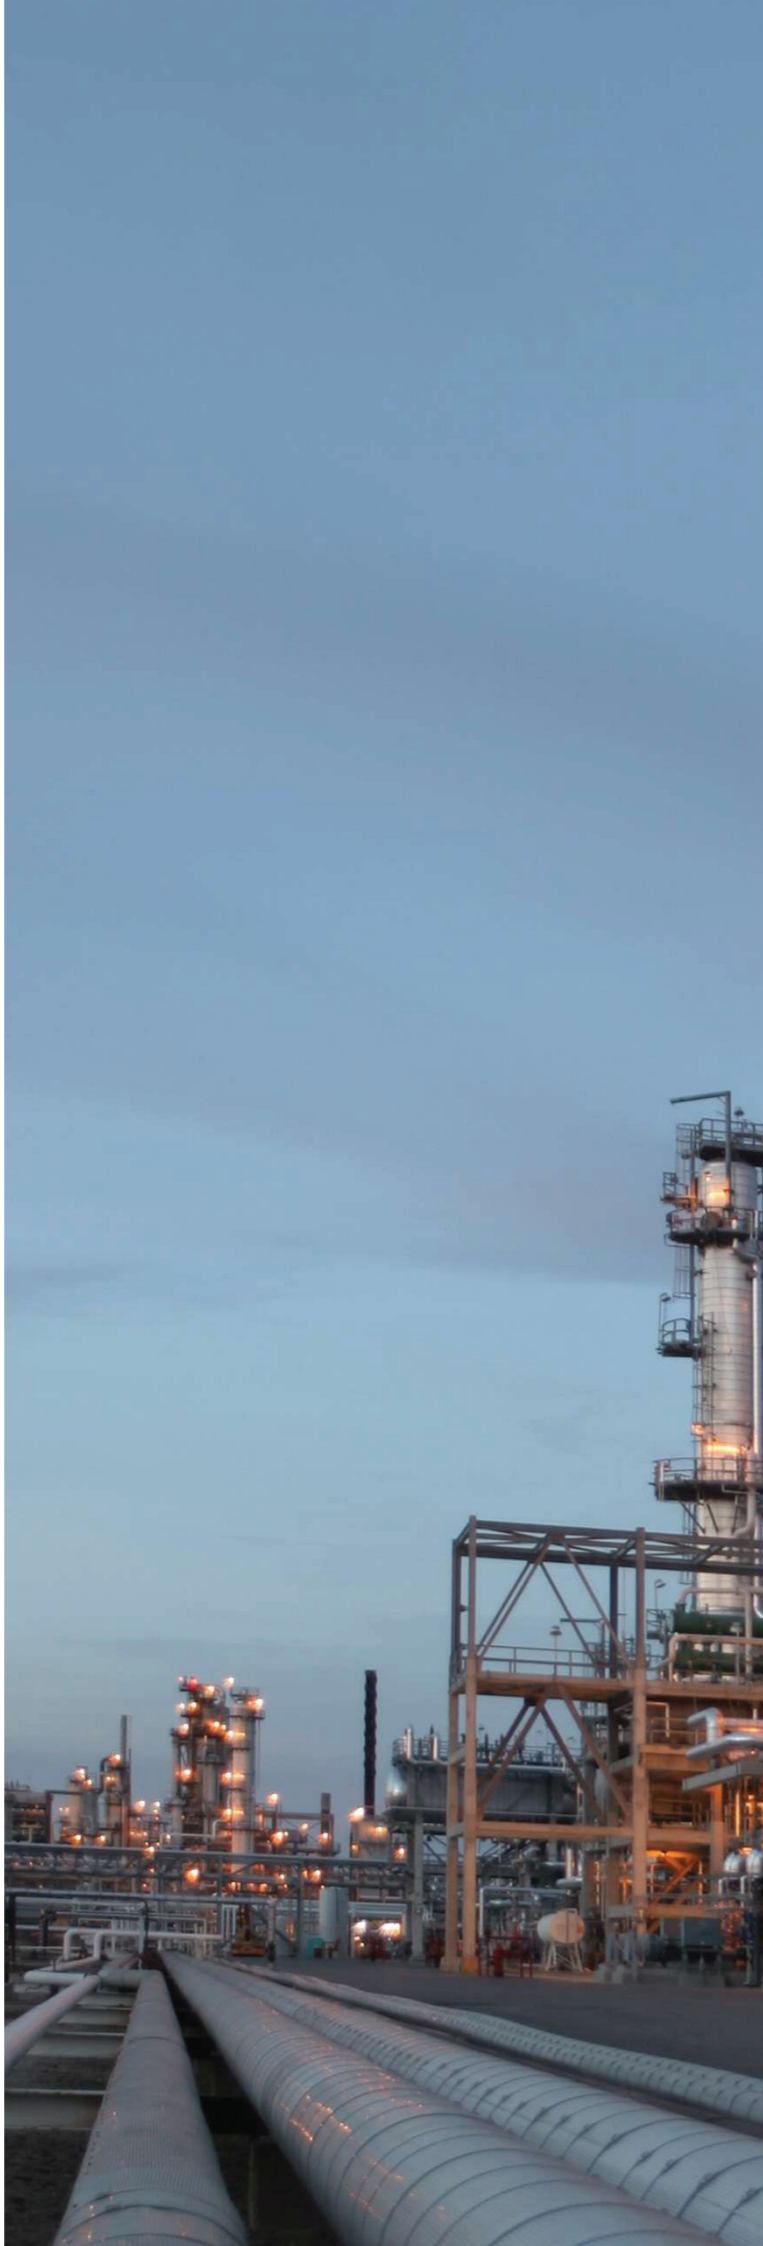

Technical Engineering Deputy of Machine Sazi Pars company

The technical engineering unit is the heart of the company. All the ideas and projects needed by the customers are examined and evaluated by engineering in this unit in the first step of entering in to the Machine sazi Pars complex.

The best way to produce the product is checked and the design and modeling of the product is done for manufacturing. Estimating and calculating the required material of the product, checking the quality of the design from the aspects of construction, transportation and installation, determining the product quality control method are all among the most important tasks of the company's technical-engineering department.

This unit has been responsible for the design of many products for customers from a wide range of industries, such as landscaping and construction, oil and gas, petrochemical and energy.

Project: Construction of 2 storage tanks of 7200 cubic meter with a fixed roof

Employer: Farabi Petrochemical

Weight: 450 tons.

Project: -Construction of 10 silos with supporting structure
-Construction of a platform above Balmil

Employer: Saadi Tile and Ceramic Company

Weight: -

Project: supply, construction and transportation of Steel Structure

Employer: Masjed Soleyman Petrochemical

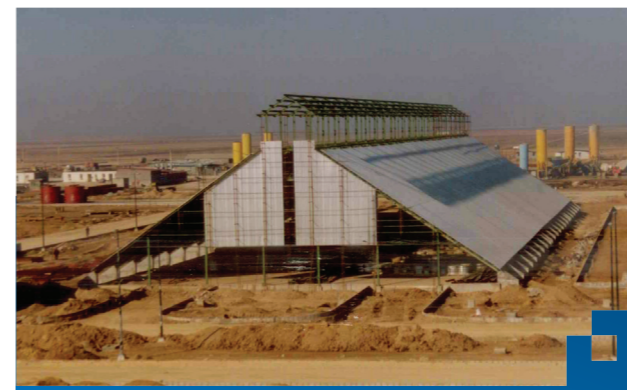

Weight: 800 tons.

Project: Construction and installation of 2 Air Receiver tanks in Parsian Refinery

Employer: Hirbod Niroom Company

Weight: 60 tons.

Project: Shazand power plant - Metal frame construction project

Employer: power plant project management of Iran Mapna

Weight: 6000 tons.

Project: Heavy diesel production - Metal frame construction

Employer: Iran Heavy Diesel Company

Weight: 900 tons.

Project: Installation and commissioning of all operations of the Paraxylin project

Employer: Bandar Imam Khomeini Petrochemical

Weight: -

Project: Yadgar Imam at the intersection of water organization St.

Employer: Kayson Construction Company - district 2 Municipality

Weight: 485 tons.

Project: Construction and installation of different types of Steel Structure, storage tanks and metal equipment of Mobarake Steel Complex

Employer: Mobarake Steel Company

Weight: 280,000 tons.

Project: 2000 MW Shahid Rajaei thermal power plant project

Employer: Tavanir Company

Weight: -

Project: Construction and installation of base tanks and the structure of the production hall

Employer: Amlah Iran Mining Company

Weight: 1450 tons.

Project: Imamzade Hassan overpass bridge

Employer: Region 17 Municipality

Weight: 870 tons.

Memorandum of cooperation with foreign companies

foreign Company	country	subject
G&G	Belgium	Construction of heavy machinery for oil and gas industries
BRONSWERK	Netherlands	Design and manufacture of heat exchangers
DEFORM	Sweden	Design and construction of spherical tanks
ELLIMETAL	Belgium	Design and construction of aluminum tanks and silos
NPJ BOILERS	Canada	Design, supply and manufacture of heat exchangers
THERMO DESIGN	Canada	Designing all types of boilers
NOREXIM	Russia	Design, supply, construction and financing

Memorandums of cooperation with domestic companies

Arak Machinery Manufacturing

Expansion of Iran's rail industry

Oil Science and Technology Park

Project: Construction of oil export terminal of Iranol Oil Company

Employer: Iranol Oil Company

Weight: -

Project: Construction of 13 Pressure Vessels

Employer: Abadan Petrochemical

Weight: 28 tons.

Project: Construction of 2 distillation towers and 26 Pressure Vessels as pc

Employer: energy development pioneer co

Weight: 450 tons.

Project: Completion of the construction of warehouse expansion tanks of Bandar Abbas factory

Employer: Pasargad Oil Company

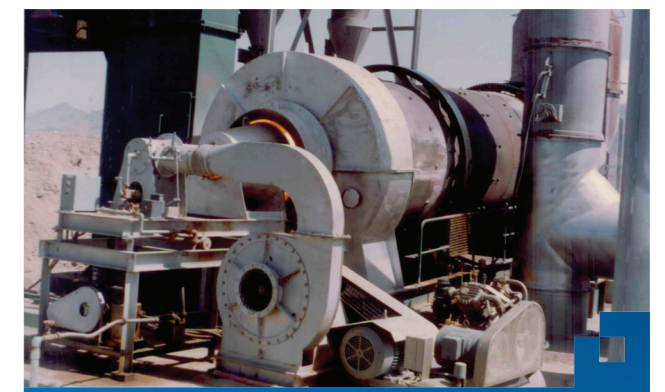

Weight: -

Project: design, construction and installation of 5 fixed and floating roof carbon steel storage tanks

Employer: Veniran Apadana Petrochemical

Weight: 1100 tons.

Project: Construction and installation of 34 asphalt plant machines

Employer: Ministry of Interior

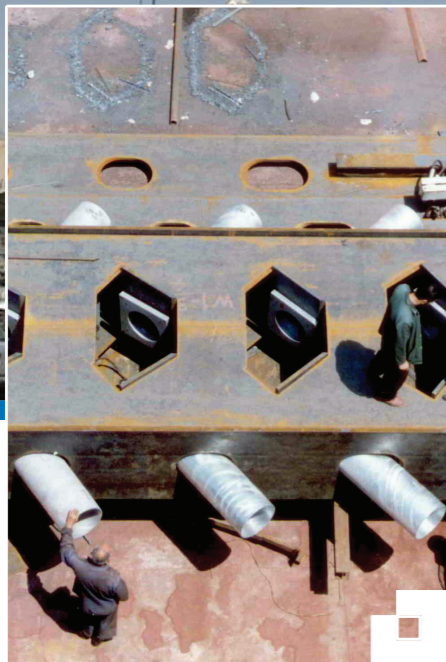

Weight: 120-90 tons.

Project: Construction of pipe racks and shelters for the Persian Gulf Star oil refinery project.

Employer: Faradast Energy Falat.

Weight: 13,500 tons.

Project: Valiasr Chamran (Parkway) Intersection Bridge

Employer: Tehran municipality

Weight: 120 tons.

Products About us (Products)

With 58 years of history, the main activities of Machine Sazi Pars company include:

Design
Supply of materials and equipment
Construction and installation (EPC) of all types of:

- Pressure tanks
- Storage tanks with fixed and floating roofs
- Distillation towers
- Hoppers
- Telecommunication towers
- Light and heavy Steel Structure

- Bridge
- Pipe rack
- Industrial Sheds
- Building and landscaping

Equipment related to the oil, gas and petrochemical industries

12 International certificates

Main projects:
